### **DETAILED ACTION**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rajiv Sarathy on 7/5/2007.

The application has been amended as follows:

Claim 35 replace – machine -- on line 1 with –computer--.

### ***Allowable Subject Matter***

Claims 1-5, 9-19, 22-42, and 46-53 are allowed.

In regards to independent claims 1, 17, 24, 32, 35, and 38, the prior art found does not teach providing the processed motion information to the client, wherein providing the processed motion information allows the client to identify a location of interest in the bit stream based at least in part on one or more of the motion information coherence and the motion information magnitude, and receiving from the client a selection indicating the location of interest in the bit stream; in combination with all of the other claim limitations.

Specifically in regards to independent claim 35, since the Examiner cannot find a definition of machine-readable medium in the specification, the Examiner is interpreting it to mean computer readable medium, which is defined on page 24 of the specification.

### ***Inquiry***
